Subject: PICODIV 24 months Report – EVK3-CT-1999-00021

Dear Dr Vaultot,

Thank you for the 24-months report of PICODIV project. And thank you also for the many acknowledgements in the enclosed publications. I am glad to see such a number of recognised articles stemming from PICODIV. As for the report, I accept it and am happy to see that the work is progressing fine; this is also evident from the excellent PICODIV website. Thank you also for posting the TIP on CORDIS. You are doing a very well with the dissemination, judging by the media activities listed.

I will be curious to learn about the results of the cruise in the Arctic waters.

I wish you all the best of successes for the third year of PICODIV.

Yours sincerely,

Piia Tuomisto
Scientific Officer
