The Interreg project Marinexus (2010-2014), coordinated by JMC had a large outreach program (about a third of the 5 M€ budget) aimed at informing schoolchildren and the general public about the oceans and human impact on these systems. Activities included equipping a laboratory in a travelling bus, which

visited many schools in the region, many workshops were organised for children on Brittany Ferries during France-England voyages and a large number of other events organised for the general public.
